

M.A. Semester-II Examination, 2015
HISTORY
Course - 15
Industrial Development in India, C. 1850-1950

Time : Three Hours

Full Marks : 40

Questions are of equal value.

Answer **any three** questions.

1. What were the demand and supply-side factors that sustained the small-scale industry of handloom weaving in South Asia in the late 19th and early 20th century?
 2. What were the stages of industrialization in South Asia? Give detailed examples of any two large-scale industry to support your argument.
 3. Describe the processes of labour recruitment and mobilization in industry with special reference to cotton mill workers.
 4. Analyse the different kinds of entrepreneurship in western and eastern India. What were the links between ethnicity, entrepreneurship and business culture in South Asia.
 5. Give a comparative account of the informal and formal systems of management in South Asian large-scale industry.
 6. What was the nature of capital, production and labour involved in coal mining in colonial India.
