

M.A. Examination, 2016
Semester – III
History
Course – C-19
(Industrial Revolution of England and Europe)

Time: 3 Hours

Full Marks: 40

Questions are value as indicated in the margin.
Answer any three questions

1. Do you agree that Industrial Revolution is a misnomer as 19th century England is concerned?
 2. Why did England first display significant new trends as far as Industrialisation was concerned?
 3. Explain the circumstances that led France to take a different path in the process of Industrialisation.
 4. Regional studies give us a nuanced understanding of the process of Industrialisation in England and Europe. Illustrate with examples.
 5. Discuss the changing parameters of the 'Standard of living' in the first phase of the Industrial Revolution in Great Britain.
 6. Is it correct to say that 'Great Divergence' theory is a Eurocentric attempt to establish the Industrial Revolution as the universal paradigm of economic development?
